Variedad de arroz : Moro- Capirona : Selva norte

Variedad de arroz : IR43- NIR : Costa norte(Lambayeque), Pitipo. Tinajones

COMENTARIO

Un mercado del arroz pilado en la mayoría de molinos locales con lentitud de salidas de ventas a otros departamentos presumiéndose que exista aun stock de arroz pilado o ya un arroz de importación que impide el ingreso de comerciantes mayoristas en especial de la gran lima que llegan a comprar un producto de calidad como es el arroz criollo lambayecano pero para este día no se observo. Cabe indicar que los precios continuan elevados por la falta de ingreso de arroz en cáscara de zonas productoras que abastecen a este departamento de lambaye que; se esperara que los ingresos sean mejores y que el precio se mantenga inalterable.
